

Drive performance in your crop with **TITAN® XC**. Improve performance of every dry fertilizer application with Titan XC to make nutrition available more quickly and support extended uptake. Specifically formulated for impregnation on dry fertilizer blends, TITAN XC is the key to quick release and uptake of vital plant nutrients. The unique and concentrated biochemistry in TITAN XC provides the broadest range of activity across major and micronutrients to maximize the return on your dry fertilizer investment.

GROWER BENEFITS:

- Expedites nutrient availability of applied dry fertilizer
- Extends uptake of nutrition by changing the way applied dry fertilizer reacts to soils for less waste and more plant performance
- Drives better root growth and development by enhancing nutrient use efficiency of a dry fertilizer application
- Optimizes yield potential for improved return on investment

ACTIVE INGREDIENTS:

Bacillus Licheniformis and Associated Metabolites

RATES:

1-2 pt/ton of dry fertilizer

FEATURES:

- Extra concentrated formulation for superior performance on dry fertilizer blends
- Works on the fertilizer you apply it to for consistent performance across all crops and soil types
- Compatible with a variety of dry fertilizers and blends
